For Teams Rooms

Make every meeting work without friction. Join Cisco Webex, Zoom, Google Meet, and other meetings without limitations from Teams Rooms. Pexip provides a dual-screen experience and content sharing from the in-room HDMI—just like you want it to work.

Join any video meeting from your Teams Rooms

Every meeting becomes a one-click-to-join experience. No need to dial any number, know details about meeting platforms, or worry about the user experience. With Pexip Connect for Teams Rooms, join any SIP or H323-enabled meeting, making your Teams Rooms useful for all your meeting and collaboration requirements. Quickly join any meeting right from the in-room control pad.

Extend the reach of your Teams Rooms

Pexip Connect for Teams Rooms enables your Teams Rooms devices to simply join third-party platforms such as Webex, Zoom, and other SIP-enabled meetings.
Make it easy to be productive

Remove the user experience confusion of joining meetings and having to book specific rooms for specific calls. Always use your Teams Rooms.

Share content seamlessly

Simply plug in the HDMI cable and share content right from your device like you do in every other meeting. Simple and easy.

Pexip Connect for Teams Rooms:

Join any meeting, share and display content, and place and receive calls to and from anyone

Interoperability service

Any internal or external meeting

zoom   webex by CISCO   Google Meet   GoTo

Teams Rooms can join Webex, Zoom, and other meeting from the in-room control panel - and with a full dual screen experience and content sharing.

Product Specifications

Pexip Connect for Teams Rooms integrates with your Teams platform and Teams Rooms. The technology is co-developed by Pexip and Microsoft, and is built on Pexip's industry-proven Cloud Video Interop (CVI) interoperability solutions for Microsoft Teams. As a result, you can use your Teams Rooms devices to do much more than connecting to Teams meetings.
